CAREER OBJECTIVES

To be a part of an environment where skill is the primary motivator and where I can enjoy my work by solving real-world problems using my qualifications to improve my skills and add value to the organization.

EXPERIENCE

Genius Consultants Limited, Kolkata   **APRIL 2022 – PRESENT**

Working as a Software Developer for the development of newly introduced modules for in-house and client projects using ASP.NET Web Applications (.Net Framework).

TECHNICAL SKILLS

- Server-Side Languages: C++, Java, C#
- Client-Side Languages: HTML, CSS, Bootstrap, JavaScript, jQuery, React JS.
- Database Knowledge: MS-SQL, MySQL
- Software Tools: Visual Studio, SQL Server Management Studio, VS Code
- Version Control: Git, Bitbucket, SourceTree, SVN
- ASP.Net, MVC, Web API, Web Services, SQL Server, JSON, XML, ASP.NET Core.

PROJECTS

- **GENFSS: GENIUS FLEXI STAFFING SOLUTION**

GenFSS is the largest product out of all the other projects of the company; it manages the business model, employee KYC, payroll, hiring and exit management, among other functions.

- **GENCLESS: GENIUS CLIENT-SIDE APPLICATION**

GenCLESS is the client-side window where they can avail benefits like Reimbursement, CTC, Generate Dynamic ID Card, Holiday Management and KYC of Employees.

DEVELOPMENT ARCHICTURE

I am a Full Stack Web Developer using the .Net framework for developing Web Apps. I use ASP.NET Web Forms Design Templet's HTML, CSS, Bootstrap codes provided by the designer according to the need.

From the client-side i use jQuery AJAX call for generate HTTP request to call the Web Services of server side and then using ADO.Net to interact with the database to call Stored Procedure and save the result in a list and send it back to the client side. From client side I reflect the data as a view for user interaction.
